MARK NEWTON / RECONCILIATION NOTE / INDEPENDENT PROJECT

Invoice Guard

Invoice, purchase order and receipt reconciliation.

Actual local demo: EUR 48 ordered, EUR 54 invoiced, 30 units. EUR 180 difference.

WHAT IT CHECKS

Exact decimal totals and unit prices.

Ordered, received and previously billed quantities.

Duplicate and conflicting invoice identifiers.

Source page and text line for each finding.

WHAT WAS VERIFIED

12/12 synthetic line matches.

Nine expected rule findings; no extra or missed codes.

24 concurrent copies: one record and one claim.

History survives a restart. Missing fields stop.

AUTOMATED CHECKS	SYNTHETIC FIELDS	EVALUATION PDFS

Python / SQLite / PDF processing / HTTP APIs / JavaScript

Original synthetic documents. Supported text-PDF templates; no OCR or payment approval.

Small synthetic evaluation, not real-supplier accuracy or customer savings. Source and tests included.
