AUTOMATED CHECKS PASSED

## Webhook recovery and CRM delivery.

Persist first. Reconcile uncertain outcomes. Retry only when safe.

ACTUAL LOCAL DEMO / PERSISTED EVENT COUNTS / SEPARATE CRM DATABASE

### RECORDED ACCEPTANCE EVIDENCE

| FAILURE PATH | MEASURED RESULT | CRM POSTS |
|---|---|---|
| Concurrent copies | 100 submissions / 1 event / 99 repeats blocked | 1 |
| Lost response | Existing receipt recovered; no resend | 1 |
| Forced process crash | Restart recovered the committed receipt | 1 |
| Unknown opaque outcome | Held for review; no automatic resend | 1 |

Signed requests, concurrent deduplication, bounded retries, owner fencing and audit traces.

Functional checks on a controlled local simulator. No production reliability or scale claim.

**Python / SQLite / HTTP APIs / JavaScript**

Fictional leads. Independent demonstration. Source, tests and recorded evidence included.

No paid client work or customer deployment is claimed. The n8n template was not executed.
